

Real estate agents

A 10pm lead still needs an email.

The text can wait until morning.

EMAIL

1. The email goes out right away

It names the property and asks which day works to see it.

TEXT

2. Text only with the lead's consent

**And only from 8am to 9pm in their
own time.**

TEXT

3. At 10pm the text waits

It goes out at 8:00 the next morning.

TEXT

4. Reply STOP

A text that is still waiting
gets cancelled.

BACKUP

5. The backup agent still gets a 10pm ping

If your team does not want night pings, that rule has to be added.

When a buyer writes after dinner

What goes out tonight, and what waits
until morning?

Email now.
The text can wait.
